
- Isolated wetland size should at least match King Co, Issaq + Bellevue @ 2500 SF and not be considered a CA.

EXHIBIT NO. 84.

- Isolated wetlands of <5000 SF with low value + low function should be allowed to be mitigated elsewhere.

EXHIBIT NO. 85.

I live where George Davis Creek resurfaces (214th) after travelling underground from (222nd).

EXHIBIT NO. 86.

- I submitted photos at last meeting that showed how wild this seasonal stream is. I live inside the city limits so I am urban & an argument was made tonight by a speaker that this type of wild stream is rural. Please feel free to use my photos to refute that testimony. Barb Raabe
