REQUEST FOR PROPOSAL

Zackuse Creek Fish Passage Project

The City of Sammamish Public Works Department is soliciting a Request for Proposal to procure a Consultant to assist with the permitting, design, and public outreach for the Zackuse Creek Fish Passage Project. Two major components of the project include replacing a 30-inch culvert under East Lake Sammamish Parkway SE to make it fish passable and to realign, regrade, and restore approximately 200-feet of Zackuse Creek upstream of the culvert. Estimated project cost is \$1.2M. Proposals are due by 4PM on August 30, 2016. The full solicitation can be found at <http://www.sammamish.us/departments/publicworks/projects/elsp/ZackuseCreekELSP.aspx>.
