**Subject:** RE: Question on DOE communications

Reid,

We met with Patrick McGraner on 9/25 for about 2 hours in the morning. I provided him with a hard copy of all the Evaluation Forms currently before the Planning Commission, along with a hard copy of the memos (on the website these are labeled as "recommendation memo #1, etc") we produced in the first half of the year.

Our conversation focused primarily on a description of the proposed amendments and a description of the policy goals. We requested that DOE clarify their comments, in particular related to isolated wetlands. We also passed along the Planning Commission's request to identify any "no-go" items.

Regards,

*Evan Maxim

**Subject:** Question on DOE communications

Evan,

Would you kindly tell me what was provided to the DOE on which Patrick McGraner based his assessment of our proposed amendments? I.e., was it the evaluation forms for those amendments or something else? Perhaps there was a transmittal to the DOE of this information, but I did not come across such in a scan of the city's ECA web page.
